

Give Your Retail Associates Faster, Easier Cycle Counting from a Future-proof Device

1300+ tag reads per second in the palm of your hand.

That's right, the RFD40 UHF RFID Standard Sled helps you take inventory faster than ever with ease and scan more items with each wave of the arm thanks to a 20+ foot range. Because less time spent taking inventory means more time helping customers and completing other vital tasks.

Tech that's built to last.

With durable drop, tumble and sealing specs and upgradability to adapt as new technologies come out, the RFD40 Sled will maximize your ROI by outlasting competitive devices.

Easy is the name of the game.

Easy to use. Easy to connect. Easy to configure and update. Easy to hold thanks to an ergonomic design. Easy to charge. Easy to get used to this kind of performance.

Tool-free is the way to be.

The RFD40 Sled has easy, tool-free changeable adaptors to keep working even as you upgrade to new devices. Similarly, the cradle cups can be swapped quickly and easily without the need to rip and replace the entire cradle.

Ideal for:

- Cycle Counting
- Item finding
- Planogram Compliance
- Returns
- Inventory Management
- Warehouse Management
- Back-of-store Management
- BOPIS/BOPAC
- Direct Store Delivery & Route Accounting

The RFID Powerhouse that Meets your Needs
