

# Zebra Workcloud Task Management™

## Visual

Workcloud Visual enables real-time communication on a single, mobile-first interface for store associates to communicate, set up, execute and review all merchandising activities. Ensure that your merchandise displays are picture-perfect so you can provide customers with a consistent and exceptional brand experience.

## Execute Visual Projects Flawlessly

Streamline your visual merchandising processes from start to finish

## Visual Merchandising in Three Simple Steps

**1 Launch**  
Visual merchandising instructions are finalized and sent to a gatekeeper, who approves and launches to store associates

**2 Complete**  
Stores receive notifications that they have a new merchandising display to set up. Once finished, they upload an image of the completed setup for review

**3 Review**  
The creator receives a real-time notification that the merchandising display has been set up, assesses that it was done correctly and sends feedback directly to associate and sends feedback directly to the store
